| b. Dan Lechliter  | AC6NZ | (new member)      |
| c. Bob Dengler    | NO6B  | ex-officio member |

Guests

- a. None

3. Reading and Approval of Minutes of the September 29<sup>th</sup>, 2007 meeting. Motion to approve by Dan AC6NZ, vote 1-0-0.

4. Continued Business from Previous TC Meetings:

- a. **K6SYV 147.210** Figueroa Mtn.. RFC received previously, but incomplete. Requesting transfer of system to new owner. Request that new, complete RFC submission be made by applicant – tabled item to next meeting. Motion by Dan (AC6NZ), vote 1-0-0.
- b. **K6SYV 146.895** Solvang. RFC received previously, but incomplete. Requesting transfer of system to new owner. Request that new, complete RFC submission be made by applicant – tabled item to next meeting. Motion by Dan (AC6NZ), vote 1-0-0.
- c. **K4ELE 146.700** Sunset Ridge. A letter advising sale of this repeater was received previously, although the RFC included no technical data. Letter requesting full RFC generated to trustee. Motion by Dan (AC6NZ), vote 1-0-0.
- d. **W6VLD 147.465** Huntington Beach. RFC received to request change Holder of Coordination although RFC was ambiguous. Request applicant to clarify RFC intent. Motion by Dan (AC6NZ), vote 1-0-0.

5. Test Coordination Reviews:

- a. **W6COH (KB6JAG) 144.505** Hemet. Test coordination running since June meeting on new frequency. TC members were unable to verify system operation. Test will continue and TC members will make further attempts to verify operation. Motion by Dan (AC6NZ), vote 1-0-0.
- b. **N6WZK 144.895** Keller Peak. System in test running since September meeting. The recent fires resulted in damage to the repeater's feedline and antennas. The repeater is off the air,

and the coordinee will be given time to re-establish his system. Review at next meeting.  
Motion by Dan (AC6NZ), vote 1-0-0.

6. Interference Complaints:

- a. No new filings at this time.

7. New RFCs/updates:

- a. Tabled, see items 4.a & 4.b.

8. New Business

- a. Waiting List Report by Bob (NO6B). N6WZK is now removed from the waiting list as Mt. Wilson test is now terminated. KE6IYC at Mt. Wilson with frequency of 147.210MHz requested & W6OY in Moreno Valley are present entries.
- b. Database Update Project. Letters earlier this year were sent to all trustees of coordinated repeaters in database requesting updates. Database irregularities discussion will be reviewed at the next meeting as our Database Manager was not present.
- c. No new D-STAR news.
- d. **WB6RSK 146.025** Pomona – This repeater was observed cycling its transmitter without identifying. System is marginally usable, possibly abandoned. Letter generated to trustee inquiring as to status of system. Motion by Dan (AC6NZ), vote 1-0-0.
- e. **N6USO 145.440** Sunset Ridge – Spurious emissions observed at up to –30dBc, between 20KHz and 800KHz as they drift. This is a serious matter and the TC therefore requests this system be repaired to eliminate these spurs in accordance with good engineering practice. Motion by Dan (AC6NZ), vote 1-0-0.
- f. **N6NIK 145.440** Palomar Mountain – Output Interference claimed by N6USO. Our signal strength measurements seem to suggest that N6NIK's antenna configuration is not in accordance with his coordination. The coordination specifies a 4-pole or corner reflector aimed south. TC to contact trustee, motion by Dan (AC6NZ), vote 1-0-0.
- g. **KE6TZG 146.385** Keller Peak – Spurious emissions observed from this system. The system trustee was advised and made appropriate repairs to correct the problem. TASMA thanks them for their cooperation.
- h. **KF6FM 146.265** Anaheim Hills – New RFC. Complete RFC submitted with coverage map. Motion to grant 6-month test by Dan (AC6NZ), vote 1-0-0.

9. Meeting Adjournment call for by Matt at 12:24PM.

Respectfully Submitted By,

Matt Lechliter W6KGB
